

# Google Fiber

## Google Fiber will be doing construction in your neighborhood!

We believe in a future of super fast Internet. A future of new possibilities we can't even imagine today—just like the initial shift from dial-up to broadband. And we're committed to helping build that future.

## What can we expect during construction?

Construction is expected to occur between 7:00 a.m. and 7:00 p.m. daily.

In most cases, construction will be completed in less than one week upon entering your neighborhood. However, sometimes construction will take longer, depending on a variety of factors.

We'll place a door hanger at your homes and post "No Parking" signs at least two (2) days before we begin work. Signs will be removed within one (1) day of completing restoration work efforts.

As a last resort, vehicles remaining in "no parking" areas while construction is taking place may be temporarily relocated via towing. If a vehicle is temporarily moved, the owner WILL NOT BE CHARGED and the vehicle will be put back where it was parked, or as close as possible.

## Where can I get more information?

Our construction inquiry line is open 24 hours a day, 7 days a week. Please call 1-877-454-6959 with any questions or concerns.

## How can I sign up for Google Fiber service?

Sign up for updates about when your neighborhood is ready for Google Fiber service at [fiber.google.com](https://fiber.google.com).
